

## Keep focused on building recurring revenue, not taxes or subscription management, with TaxJar & Chargebee

Plug in real-time sales tax, jurisdiction-level tax reporting, and empower your automated sales taxes in all states with AutoFile. TaxJar adds ease of taxation to every step of your customer's buying journey:

### Revenue Operations

Plug inefficiencies and scale each revenue function from sales to finance with the right taxes.

### Subscription Management

Unlock your subscription model through faster experiments and intelligent automations.

### Billing Automation

Bill, invoice and collect on auto-pilot, without wasting hours on non-billable code. Have confidence your taxation is hassle free with TaxJar.

### Payment Processing

One integration that gets the first dollar in, just as easily as the 1,000,000th. Accurate taxation is a breeze with the TaxJar Integration.

## Top 6 Ways TaxJar Wins with Chargebee
